

Need a thing delivered right now?

Introducing... **13things**. A 24/7 delivery service brought to you by 13cabs.

Immediate Release: Friday 27 March 2020

Today, Australia's 40,000 professional 13cabs Drivers, with their 10,000 nationwide cab fleet, announce the launch of **13things**. An innovative, home-delivery service established to meet Australia's growing demand for a reputable and trusted, 24-hour 'instant' delivery.

With Australians requiring delivered goods and packages more than ever right now, **13things** provides a "no touch" delivery service via a fast and nimble app booking system. Meaning Australians can now organise the immediate pick up and drop off of all their essential (and non-essential) "things" without being required to leave the house.

Stuart Overall, Chief Operating Officer, 13cabs said: "While 13things has been in the pipeline for some time it has never felt as essential a service as it is right now. By launching **13things** today, we hope to give our Australian community piece of mind that they'll be able to access all the things, like medicines and groceries, that they require while adjusting to these unusual circumstances."

Booking a delivery with **13things** is simple. Australians can either book a parcel delivery via the 13cabs app, the dedicated www.13things.com.au or by calling the 24/7 local customer support team on 13 22 27.

It's even geared for small business owners, like cafes, restaurants and pharmacies making the transition to an online delivery model who need speedy deliveries to keep their business moving.

Overall continues: "Once a delivery order is placed, the average pick up time for a parcel is 10 minutes. We never surge charge Australians for a 13cabs ride, and we definitely won't be surging for your deliveries.

"We believe 13things is a really important step to support the businesses we serve in a time of need, as we continue to expand our range of essential services. We hope **13things** is a service that will be of real help and convenience right now. And the fact is, if the thing fits in the car and is legal, a 13cabs Professional Driver will pick it up and bring it to the door of all Australians, 24/7, any day of the year."

Ends -
